EVENTS TO NOTE

TALK WILL FOCUS ON ALCHEMY OF MYSTICISM

The English Department and the President's Advisory Council on Women are  
cosponsoring "The Alchemy of Mysticism," a talk by Professor Jo Ann  
McNamara  
of Hunter College in New York, on Thursday, Oct. 9, from 4 to 5 p.m. at  
the  
North Dakota Museum of Art. A reception will be held after the talk in  
the  
Museum.

Prof. McNamara is a well-known medievalist and an exciting speaker who has  
written extensively on women's roles. Her talk will discuss the  
spirituality  
of female mystics in the Middle Ages. Although they were excluded from the  
universities and from the priesthood, women such as Hildegard von Bingen  
produced visionary literature so powerful and moving that even the male  
theologians came to learn from it.

This talk was originally scheduled for April 22, until its cancellation  
was  
forced by a well-known local act of God. We're glad to have been able to  
reschedule Prof. McNamara's visit, and invite all interested listeners to  
attend the talk and meet Prof. McNamara during the reception. -- Joyce  
Coleman, Assistant Professor of English.

PAULA POUNDSTONE HEADLINES SPECIAL  
"THANK YOU, STUDENTS" PROGRAM

To thank students, faculty and staff for their help during the Flood of  
1997,  
the University will present popular comedian Paula Poundstone in a free  
performance at 7 p.m. Friday, Oct. 10, at the Hyslop Sports Center. The  
"Evening with Paula Poundstone" is open to the general community, but the  
doors will open to UND students first, starting at 6 p.m. Students will  
need a  
current UND ID to get first-choice seats. The first 1,500 students will  
get  
free UND pennants.

"This special event is for purposes of thanking our students, faculty and

staff for all they did for UND and Grand Forks last spring and in the summer that followed. Come and bring your friends and neighbors to this free celebration that is open to all," said UND President Kendall Baker in his Sept. 30 State of the University address.

Earlier in the day, students will be treated to a free concert on the front lawn of UND's Memorial Union. The Winnipeg-based band "Bliss" will perform at about 3 p.m. "Bliss" is donating its fee as a tribute to UND students.

The "Thank You" Day is sponsored by the Office of the President, Student Academic Services and the Office of University Relations, with special assistance from Greek Life and Telesis. -- Cathy Buyarski, Director, Student Academic Services.

## PRE-MED DAY SET FOR OCT. 11

College and high school students who are interested in a career in Medicine are invited to the annual Pre-Med Day event, set for Saturday, Oct. 11, at the School of Medicine and Health Sciences. It is free and open to the public.

The event is designed to provide insight into the process of applying to medical school and the life of a physician. Organized by the UNDSMHS Student Council and Undergraduate Medical Association, the event is meant to help people who are thinking about applying or have decided to apply to medical school and need more specific information on the admissions process.

Presentations will include an overview of how the medical degree (M.D.) curriculum is evolving at UND, the pre-med curriculum, and a slide show of student activities and events. A panel of currently enrolled medical students will answer questions and a mock interview will be staged to allow audience members to witness how admissions interviews are conducted. A panel of local doctors will discuss the topic, "Life as a Physician."

## WOMEN'S CENTER TO HOST CLOTHESLINE PROJECT

The Women's Center will host the North Dakota Clothesline Project Monday through Friday, Oct. 13-17, from 9 a.m. to 8 p.m. in the River Valley Room of the Memorial Union.

The Clothesline Project is a visual display of shirts with written messages and illustrations that graphically demonstrate the impact of violence against individuals. These shirts are designed by survivors of violence, their families and/or friends. The purpose is to educate the public, mourn those who have died as a result of this violence, and to bear witness to victims' courage to survive and heal.

The Clothesline Project honors survivors as well as children who have been affected by intimate violence. A survivor is any person who has experienced

personal violence and lived to tell about it. The term victim is reserved for

those who did not survive. Any person who has experienced domestic violence or

sexual assault at any time in their life is encouraged to come forward and design a shirt. Victim's families and friends are also invited to participate.

If you or someone you know would like to decorate a shirt to be added to the

Clothesline Project, please call Kay or Donna at the Women's Center, 777-4300,

for more information. -- Donna Oltmanns, Coordinator, Women's Center.

## NORWEGIAN AMBASSADOR WILL VISIT CITY

On Thursday, Oct. 16, Norway's Ambassador to the United States, Thomas Vraalsen, will visit Grand Forks. He will arrive around 11 a.m. and will proceed to the Sons of Norway Lodge, 1401 9th Ave. So., for a press conference, after which he will attend a noon luncheon.

The ambassador would like to meet with the Norwegian students for a few minutes before the press conference, so they are encouraged to be at the Sons of Norway Lodge at 11:00 a.m. The ambassador is most interested in our two exchange programs with Norway as well as the Norwegian language major and the Scandinavian Studies minor. His interest in UND's academic links to Norway is one of the reasons he is coming to Grand Forks.

The other is that Grand Forks and the counties surrounding Grand Forks on both sides of the river have the highest density of Americans of Norwegian descent anywhere in North America. During the coverage of the flood, the predominance of Norwegian names among those who were fighting the flood and who were involved in the cleanup and recovery left a lasting impression upon Norwegians. Ambassador Vraalsen stated that on behalf of the government of Norway he would like to offer words of encouragement and support to the Norwegian-Americans of this area as well as to applaud their efforts. --  
Curt Stofferahn, Associate Profesor of Sociology.

Topics for discussion on Oct. 16 include:

1. Proposed Senate bylaw changes that Senate membership elections be conducted in April rather than September to facilitate Senate deliberations earlier in the academic year and that the membership of the Senate Executive Committee be expanded by one to include the senior UND elected representative on the Council of College Faculties.
2. Proposed changes in University Council membership to include: full time lecturers, clinical faculty, program directors, coordinators, assistant and associate Deans who also hold faculty rank.

The remainder of the elected Senate members will be elected at large and elected Council members shall be two and one-half times the number of ex-officio members. Neither program directors nor coordinators shall be ex-officio members of the Senate.
4. Initial discussion of the deliberations of the General Education Task Force led by Arts and Sciences Dean John Ettling, GER Task Force.

and  
Records by noon, Friday, Oct. 17. Please adhere to the following  
procedures to  
assure that accurate and adequate information is transmitted to students.

transmits them to teaching faculty through routine procedures.

2. Faculty complete a form for each class section.

NOTE: Forms for ALL sections are to be completed and returned. If no students are deficient, the blank sheet MUST be signed and returned. It is considered verification that the instructor considers no students to be deficient at this time.

4. If a student is attending a class and the name is not listed on the deficiency form, it is an indication that the student's registration is in error. The student should not be allowed to continue attending the class, but should be directed to the Office of Admissions and Records to correct the problem.

5. The "Unsatisfactory Progress Report" forms are to be completed by all faculty members and returned to the Office of Admissions and Records no LATER THAN NOON ON FRIDAY, OCT. 17. To schedule an SGID or for more information about the process, contact the Office of Instructional Development at 777-3325. -- Dan Rice, Director, Office of Instructional Development.

## UNIVERSITY SENATE

### UNIVERSITY SENATE REPORT

University Senate conducted its regular monthly meeting October 2 with  
Chair  
Sara Hanhan (Teaching and Learning) presiding. Business included annual  
officer elections. In a mostly routine meeting, two proposed additions to  
the  
Code of Student Life, one about solicitations and the other about surveys,  
drew the greatest reaction because of what some saw as the restrictive  
nature,  
if not questionable constitutionality, of the changes. Fifty-eight of the  
current 79 Senate members attended. The October meeting was adjourned at  
5:33  
p.m. after a 4:10 p.m. call to order. Reports on proceedings follow.

Al Fivizzani Elected Chair, Mary Kweit  
Vice Chair Of 1997-98 University Senate

Al Fivizzani (Biology) was elected chair and Mary Kweit (Political  
Science)  
vice chair of University Senate for 1997-98 at its Oct. 2 meeting.  
Fivizzani  
was vice chair in 1994-95. They succeed Sara Hanhan (Teaching and  
Learning)  
and Wayne Swisher (Communication Sciences and Disorders), respectively, in  
those positions.

In other voting, D. Scott Lowe (Philosophy & Religion) was elected to a  
two-year term on the Senate Executive Committee succeeding Fivizzani  
(Biology);

Janet Kelly Moen (Sociology) was elected to a three-year term as one of  
UND's  
faculty representatives on the North Dakota University System Council of  
College Faculties, succeeding Hanhan (Teaching and Learning);

Jonathan Sickler was elected as student representative to the Senate  
Executive  
Committee;

Betty Gard (Library) and Charlotte Humphries (Health, Physical Education  
and  
Recreation) were elected to the Senate Committee on Committees.

Student Code: Solicitation Change Soundly  
Defeated, Survey Alteration Barely Passes

A proposed addition to the definition of "solicitation" in the Code of Student Life was almost unanimously defeated by University Senate, which voiced uncertainties about its language and intent and questioned its constitutionality.

Approval was being sought for adding to the definition of campus solicitation the wording "asking, appealing, enticing, pleading or seriously requesting for membership or information." Among other concerns, senators wondered what "seriously" meant as it defeated the requested addition by a vote of 48 to 2 with three abstentions.

Jan Zahrly (Management), a member of the Student Policy Committee that submitted the proposed change to Senate, said it was initiated by students and its intent was to prevent harassment. In answer to queries about a more specific origin behind the proposed addition to the definition, she said "this has been religious groups" approaching students "in many places and at many times." She had explained in initial questioning that students were concerned about organizations that they perceived as "seriously requesting information in a continuous, repetitive" way.

Joanne Gabrynowicz (Space Studies) said she understood the concern but said "this language is so oppressive." Lana Rakow (School of Communication) said she was "extremely concerned about inclusion of the language 'requesting information'." Al Berger (History) said he thought the kind of activity addressed in the addition to the solicitation definition is constitutionally protected. Lynn Lindholm (Philosophy and Religion) suggested that students be educated on rights and ways of responding within such situations instead of adding to the solicitation definition.

On the other Code of Student Life proposal, senators questioned the need for adding "surveys" to the Code of Student Life section on petitions and the expressed some doubts about the content of the section about the logistics of administering them. But enough -- barely -- senators apparently saw the change as merely innocuous and approved it by a 23-21 margin with three abstentions.

The section added to the part of the Code on petitions states: "Surveys conducted by non-recognized organization or student organizations on must include the purpose of the survey, and the name of the organization must be displayed prominently on the survey. A copy may be requested by the Coordinator of Student Organizations for verification of name and organization. The content of the survey shall not be censored." (The coordinator of student organizations is designated as the student affairs vice president's representative in the survey addition to the code.)

Zahrly, again representing the Student Policy Committee through which students also initiated this proposed addition to the student code, said concerns centered around conforming to the UND Institutional Review Board's conditions regarding the use of human subjects in research, which includes surveys. A memorandum of understanding between that board and the Vice President for Student Affairs when student groups operating under supervision of that area are concerned was instrumental in the proposed addition of the survey section to the student code.

Thomas Petros (Psychology) said he thought the change was fine, except "the

vice president for student affairs should be schooled in the treatment of human subjects (in terms of research and survey activities)." While Al Berger (History) saw the addition as a possible way "to shelf a controversial proposal" being addressed through some surveys "intending to seek the depth of opposition to University policy," David Uherka (Mathematics) stated "it doesn't seem to require anything."

#### Senate Will Hold Second, Informal Meeting Each Month This Year

Another meeting each month, less formal than the regular one and intended more for discussion instead of final actions, will be held by University Senate this year. That was among announcements at its Oct. 2 meeting on actions since last spring by the Senate Executive Committee, which met more often than usual over the past summer because the spring flood canceled the May meeting and other end-of-school-year opportunities for conducting business.

The informational/discussion meetings, to which all Council members will be invited, will be conducted on the third Thursday of each month and will be similar to Senate forums at which various issues of concern to the University community will be discussed.

The first will be Oct. 16 at 4:05 p.m. in room 7, Gamble Hall. Topics for discussion will be the recommended constitutional and bylaw changes put forth by the Task Force on Senate Membership and by the Senate Executive Committee and a beginning discussion of the General Education Requirements. Ideas for other meetings are being solicited from Senate members as well as from other Council members.

#### Senate Changes Time Line, Procedures For Council of College Faculties Elections

Several recommendations from the University Senate Executive Committee about times and methods for election of UND members to the statewide Council of College Faculties were approved by Senate at its Oct. 2 meeting. Included was that beginning with the 1998-99 Senate elections, the University representatives on the Council of College Faculties will be elected by the University at the same time and method as members of Senate. It was noted that changing the time of election of Senate members from the present September time frame to April is on the docket. If approved, election of the Council and Senate members would be conducted in the spring.

Other Council of College Faculties election times and procedures changes approved were removing from the ballots names of Council members from any college already represented with two members on the Council of College Faculties; making the first ballot a nominating ballot; making Council of College Faculties terms of offices three years, with the term of one member expiring each year; and designating the most recently retired Council member as the alternate to the Council of College Faculties.

#### Announcements, Comments

UND President Kendall Baker, responding to an inquiry about how the University Restructuring and Reallocation Committee will identify programs for review, said the Committee is, indeed, being brought into the program review process and recommendations will be program evaluation based rather than enrollment based.

Actions of the Senate Executive Committee since the end of the spring

semester  
that were announced at the Oct. 2 meeting, in addition to those already  
noted  
in this report, incluavid Wilson. -- Jim Penwarden (University Relations).

#### MAJORITY OF '97 MEDICINE GRADS CHOSE PRIMARY CARE FIELD

Sixty-five percent of the M.D. Class of '97 entered training in primary this past summer. Thirty-nine of the 60 graduates selected residency programs in family medicine, pediatrics, internal medicine and combined medicine-pediatrics. Last year, 15 1996 graduates chose family medicine for further training.

Internal medicine attracted six graduates, while five entered pediatrics training. Three have begun transitional one-year residency training, and another two have entered transitional programs with spots secured for next year in physical medicine and rehabilitation, and ophthalmology. Obstetrics-gynecology and orthopedic surgery programs have each attracted three graduates; emergency medicine and pathology have each attracted two graduates. Three graduates have not yet finalized their residency training plans.

Of those graduates, 23 will remain in North Dakota for training. States where others will train include Minnesota, Michigan, Ohio, Wisconsin, Iowa, Texas, Utah, Arizona, Tennessee, Colorado, Oregon, Arkansas, Idaho, Nebraska, New Mexico, Nevada and Illinois. ## MUSEUM CONCERT SERIES BEGINS OCT. 12

Classical music will again grace the galleries of the North Dakota Museum of Art when the Miami String Quartet performs this year's first Museum Concert at 2 p.m. Sunday, Oct. 12. Probably the best thing an ensemble can do for a neglected work is to make listeners feel indignation over its failure to find a place in the standard repertory. The Miami String Quartet performs that service with both freshness and passion for the late Argentine composer Alberto Ginastera with his Quartet No. 2 for Strings, and for Peteris Vask's

1984 "Sommerweisen" Quartet No. 2. Both will be performed at the Museum, along with Beethoven.

The second performance in the series is by the Norwegian-based Grieg Piano Trio on Sunday, Nov. 2. The trio has toured the United States, Canada, and Europe, and were selected to play at the ceremony honoring Nobel Prize winners in Oslo, Norway. They will play works by Shostakovich, Beethoven and Dvorak.

Classical guitar will provide a change of pace Jan. 11 with a performance by David Burgess. Praised by critics for his "polished technique and flamboyant style," Burgess had performed solo recitals throughout North and South America, Europe and the Far East. Burgess was a protégé of the great Andres Segovia and has continued to perform concerts exploring the melodies and rhythm of Latin music.

On Feb. 22, Jan-Erik Gustafsson, a Finish cellist who has won the Young Concert Artists International Auditions and the Eurovision Young Musician of the Year competition, will perform on a 1718 Carl Giuseppe Testore cello made in Milan.

Lee Luvisi completes the season with his piano performance on March 8. Over the past nearly four decades, he has developed an enviable career both as a soloist and chamber musician, and is today one of the most highly respected artists on the American musical scene.

Season tickets for the five concerts are now available for \$50 per general admission ticket or for \$25 per season for students. Tickets at the door are \$12 or \$5 respectively. Those interested in becoming a sponsor of the Concert Series may do so by donating \$50 or more beyond the ticket price; their names will be listed in each program. For more information, please call the Museum at 777-4195, or mail a check to Box 7305; include your name and address. Tickets will be mailed or held at the door. The Museum Concert Series is supported in part by funding from the Myra Foundation. -- Marsy Schroeder, North Dakota Museum of Art.

## CRAFT EXPERT, FINANCIAL PLANNER ARE STUDIO ONE GUESTS

Darlene Shea, co-owner of Shea's Nursery in Grand Forks, will demonstrate her Halloween craft ideas for children during the Friday, Oct. 10 broadcast of "Studio One." She will use a variety of supplies including popcorn, candy corn, fake spiders, and red nail polish to create spooky decorations. Her focus will be on how inexpensive these crafts are to make and how much fun kids will have doing them.

Neil Robinson, an investor representing the Edward D. Jones Co., will also appear on the show to explain the basic principles of investing money. He says that compared to putting your money into a savings account or buying a Certificate of Deposit, a mutual fund can be much more prosperous. He will explain three easy tips for beginner investors.

"Studio One" is an award-winning one-hour weekly morning show featuring news, weather, sports, and interviews. The program airs on UND Channel 3 in Grand Forks live Friday at 7 a.m. and is repeated at noon and 7 p.m. Rebroadcasts can be seen Saturdays at 10 a.m. and noon, as well as Monday through Wednesday at 7 p.m. The show also airs in Fargo, Bismarck/Mandan, Minot, and Minneapolis. -- Monte Koshel, Studio One.
